Nurturing cashless finance needs

Mahindra Comviva features a portfolio of comprehensive digital financial solutions for banks, financial institutions and telecom operators

Mahindra Comviva is a global leader in digital financial and prepaid domain, with over 130 deployments in 55-plus countries and serves over one billion consumers. It offers comprehensive digital financial solutions for the issuing and acquiring side of banks and businesses of financial institutions. In the Middle East, Mahindra Comviva has enabled over 10-plus banks, telecom operators and financial aggregators to facilitate digital

financial services.

On issuing side, mobiquity® Wallet offers a feature-rich mobile wallet for consumers and a robust and flexible platform for service providers and their partners. It leverages NFC (HCE), BLE, QR Codes, biometrics, geo fencing and sound based payments enhancing the digital payment experience for consumers.

On acquiring side, payPLUS empowers bank's or acquirer's merchant partners with a unified payment acceptance platform that enables acceptance of any payment instrument (such as cards, digital wallets, mVisa, etc.) across any channels (such as in-store, app, web or physical), thereby significantly reducing barriers to adoption of new technologies to acquire merchants and enable cashless transactions.
